29mm White ICODE SLIX 2

A 29mm round white sticker with NXP's ICODE SLIX 2 NFC chip. The 29mm ST737 is ideally suited to long lasting asset tagging with the ICODE SLIX 2's 50 year data memory specification.

A reliable tag, the 29mm provides a good balance between physical size and ScanStrength scan distance performance. Can be provided with ID print and the 29mm face is large enough for a QR code.
